Testimonial

We recently used the services of Simon's Websites with designing and creating our website from scratch.

Throughout the entire process, Simon has been extraordinarily patient with us, and outstanding with his workmanship and attention to detail. Simon demonstrated great knowledge to help us with ideas and content to suit our needs. He also showed tremendous flexibility with changes we required, and innovative understanding for our business type.

Simon recognised our request to self manage the site, and was more than happy to come out to our business for a handover at a time convenient to us.

We are incredibly pleased with our website, and more importantly Simon's professional and thoughtful assistance. We will use Simon's Websites again for our future needs, and highly recommend him to other businesses and associations.

Kind regards

Hayley Slater
